The [Software Kombinat](#) provides a platform for a small group of independent developers: us.

Work we did in our spare time will be published here - [as open source](#) - in general.

You are right now looking at our new site, which is currently being setup. It's powered by [Joomla](#)

[a](#)
Before, we used MediaWiki. Before MediaWiki, we generated the pages using Velocity and a bunch of XML files. Before Velocity, we used a simple text editor. Technology constantly changes - only the content stays the same ...
